A FEW WORDS WITH THE INDE-PENDENTS.

When the Independent movement began to take form, in 1873, there were not a few sagacious and experienced men who expressed the opinion that it would never attain the importsuce of a national party, but that it help in this contest is the rotten old would be seized upon, manipulated and democracy. used in localities and states, by the leaders of the democratic party, which party would finally divide its assets and profit by its foolishness. Events have borne out in a remarkable degree this prophecy of the past, and the rapidly dwindling ranks of the Independent members are fast coming to a realization of the true state of the case.

Whatever may have been the motive which induced the inspority of those democrats who joined the Independent party to forsake their past affiliations quite apparent that the "bosses," so to speak, were governed by none other than sinister designs. Taking the Independence in thought and action, and declare that the great mass of their dependent party in this state, for an declare that the great mass of their dependence in thought and declare that the great mass of their dependence in the property of the great mass of their dependence in the property of the great mass of their dependence in the speak, were governed by none other than sinister designs. Taking the Independence in thought and action, and James Jones, Co. I, 7th Illinois cannot be denied. At the first general election held after the new party was born, it swept the state by a majority of 36,000. Nims, living in the north part of town, came to the lecture at the Baptist church, and hitched his horse at Wednes lay Frening, October 25. the rack near by. At the con lusion of the lecture he went for his team, and behold it was gone! He at once notified the officers of his loss, and early this morning commenced to scarch ter his missing team. After awhile the horse was found in the vicinity of the deput, and a little later the carriage was found in the open field near the old rolling mill site, but the barness has not yet turned up. The horse showed signs of having been driven hard, and the prob ability is that it was taken by some per son or persons who wanted to make a trip into the country with as little cost as possible, and took the team for that purpose. It is a great pity that the fellows were not caught with the team is their possession, which would have made a case of larceny—for anybody who would do such a trick as that, even though he turned the horse loose, richly deserves the penitentlary.

Gone. -- Yesterday George W. Baker Esq., and family, left for South Bend Ind., their future home. It is now over twenty-three years since Mr. Baker came to Decatur. He has seen it grow from a small prairie village to a pretentious city, and during all those years he has been closely identified with its prosperity, and is devotedly attached to its best interests. For the greater part of that time he has been engaged in active business, and we but echo the general sentiments of our people, when we say that Decatur is the better by reason of his efforts in behalf of the material and moral interests of the community. An enterprising and energetic business man, patriotic citizen and a kind neighbor, we regret to part with him, and trust that he may find among the scenes of the same old chap. his early life (for he lived in South Bend rears ago) as good and true friends as he caves behind him in Decatur

Level Best .- We are sure it pays to lo your "level best" at all times, as whatever is worth doing at all is worth loing well; as an illustration, the manfacturers of the famous Charter Oak Stoves have always aimed to buy the best material, employ the best workmen, and make the best Cooking Stove that could be produced, and the result is, the CHARTER OAL has attained a popularity inprocedented in the history of stoves.

Gen. John A. Logan.-This eminent statesman and orator will address the citizens of Decatur and vicinity, at the court house to-night. The short time given for the circulation of the notice will render it necessary for every one to become a courier to carry the information to his neighbor. It was not until this morning that it was made certain hat General Logan could speak here this evening, but as short as the notice s, with suitable effort the court house may be packed full and running over, as it doubtless will be. PROF, AI PHONES HILL B:

Dear Sir—I desire to state that for the past three years I have been troubled greating troubled with rheumatic pains; so severe was the last stack that I was compolited to remain in head a helpless sufferer, and this is the most hurried season of my business too. A friend brought me two bottles of your valuable medicine, the IRIA—and with pleasure I state that those two bottles affected a permanent sure upon me. Six months have since passed, and no return of this territing disease has troubled me, I have un various occasions since recommended the BILA MONE I REHEIU—MATIC CURE to soveral of my effected neighbors, and slways with a uniform result—a certain and perfect cure in such case. I am withing to be interviewed and verbally assists any follows.

Your respectful,

The discoverer of this medicine has walked the side of the hospitals of London and Paris for the last twenty years, making Sheumotism a specialty, and the prescription from which this remedy is compounded is all he ever used in the treatment of this discase. For the past year it has been used with perfect success and satisfaction in the hospitals of Montreal, and is recommended by the very best practitioners in the toty as a safe, specify and positive our of either gout or shedgmatism.

In simple cases sometimes one or two doses anglice. In most chronic cases to is sure to give way by the use of four or five battles.

Bostox, Dec 12, 1869

Gentlemen—bly only object in giving you this testimonial is to spread valuable information. Having been body afficied with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be abload disease, I took many of the advertised bload preparations, aniong which was any quantity of Saraspartila, without obtaining any benefit until I commenced taking the Veckins, and before I had completed the first bottle i saw that I had got the right medicine Consequently, I followed on with it until I had taken seven bottles, when I was pronounced a well man, and my skin is smooth and entirely free from pimples and eruptions. I never enjoyed so good health before and I attribute it all to the use of Vegetine. To benefit those afflicted with Rheumatism, I will make mention also of the Vegetine's wonderful power of caring me of this acute complaint, of which I have suffered so intensely.
